

Oil Spill Prevention Control, and Countermeasure (SPCC) Program

November 19, 2010

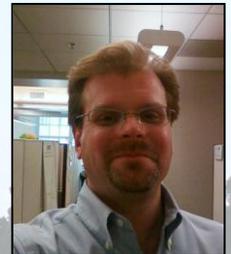

2:30 pm (eastern), 1:30 pm (central), 12:30 pm (mountain), 11:30 am (pacific)

Topics will include federal requirements under the Oil Spill Prevention Control, and Countermeasure (SPCC) Program to prevent oil spills into waters of the United States and adjoining shorelines. Livestock and other operations are covered if they: store, transfer, use, or consume oil or oil products, such as diesel fuel, gasoline, lube oil, hydraulic oil, adjuvant oil, crop oil, vegetable oil, or animal fat; and store more than 1,320 US gallons in aboveground containers or more than 42,000 US gallons in completely buried containers; and could reasonably be expected to discharge oil to waters of the US or adjoining shorelines, such as interstate waters, intrastate lakes, rivers, and streams. Speakers will explain the recent extension of the compliance deadline and the status of a proposed rule to exempt certain milk containers. *An application for continuing education credit for Certified Crop Advisors (CCAs) and members of the American Registry of Professional Animal Scientists (ARPAS) has been submitted.*

Carol Galloway is EPA's national compliance coordinator for concentrated animal feeding operations (CAFO). She has the lead for compliance assistance and compliance monitoring activities for CAFOs, one of EPA's national priorities for compliance and enforcement. She has been a part of EPA's Kansas City-based National Agriculture Center for the past 10 years where she provides compliance assistance information and coordinates a wide variety of environmental programs that affect agriculture. She holds a Masters in Business Administration from the University of Virginia's Darden School. Phone: (913) 551-5092; Email: Galloway.Carol@epamail.epa.gov

J. Troy Swackhammer is in the Office of Emergency Management, Regulation and Policy Development Division (OEM/RPPD) working on oil spill prevention and preparedness policies and regulations under 40 CFR 112, which includes the Spill Prevention, Control and Countermeasure (SPCC) and the Facility Response Plan (FRP) regulations. Previously, he worked as an environmental consultant with Versar, Inc. and SAIC, as an environmental engineer for the Metropolitan Washington Airports Authority. He received his Bachelor of Science in Chemical Engineering from the University of Virginia and his Master of Science in Civil-Environmental Engineering from Virginia Tech. Phone: (202) 564-1966; Email: swackhammer.j-troy@epa.gov

David Hickey joined the National Milk Producers Federation (NMPF) in May 2010. As Director of Government Relations, David is primarily responsible for advocating and developing policy, especially related to energy, environment and transportation. Prior to joining NMPF, David was with the National Association of State Departments of Agriculture (NASDA) as Manager of Legislative and Regulatory Affairs. His portfolio included dairy, energy, climate change, rural development, farm safety net, crop insurance, and disaster assistance. Before working at NASDA, David was a Legislative Correspondent for Sen. Norm Coleman (R-Minn.), where he had the opportunity to work extensively on the 2008 Farm Bill and various pieces of key energy-related legislation. Originally hailing from Minnesota, David attended Arizona State University, where he studied Political Science. Phone: (703) 243-6111; Email: dhickey@nmpf.org
